DJ will have lights and music – appropriate music Nothing else will be available to purchase (ie. Glow sticks, snacks, etc.) Beach activities will be available – ie. Limbo for the younger students and older students to support this
Parking Lot	Presentation	Forestview was designed to be a walking school, but is becoming more of a driving school The presenting problems: - Cars shouldn't even be in the staff parking - The board and the city also need to be part of the solution along with the school and community What we have done: No additions Who is involved: - there needs to be a mechanical solution -Use a board vehicle to block the staff parking lot -We would like a long-term solution that is sustainable

		<p>Short term plans and ideas</p> <p>Long term ideas</p> <ul style="list-style-type: none"> -Will Kiss and Ride back up the traffic down FV -Involve the traffic planning department -Gate in the far end of the field <p>Closing the parking lot at the end of the day, but leave it open in the morning. (not an option)</p> <p>The sign that we have requested has a second row of by-law number on it so that by-law can come in and start ticketing those who are double parked.</p>
